CPAP tube

Breathing Tube

- Tube plays an important role in effective and comfortable CPAP therapy.

Features

Light

Lightweight is able to decrease the dragging of to mask during therapy. Less weight means more freedom. Meanwhile, thanks to the slim design, it is much easier to be stored in the CPAP carry bag.

Durable

High-quality material enables the tubing to slow down the aging process and improve the anti-corrosion performance.

Kink Resistant

Scientific spiral interval design makes the tubing more flexible and kink resistant.

Compatible

It is designed with 22mm cuffs so that it is compatible with most CPAP devices.
